Second International IEEE
WoWMoM Workshop on
**Autonomic and
Opportunistic
Communications**

Newport Beach, CA (USA) 23 June 2008

a World of Wireless

The Second IEEE WoWMoM Workshop on Autonomic and Opportunistic Communications

Preliminary CALL FOR PAPERS

The goal of this workshop is to provide a forum between the autonomic and opportunistic communication communities to exchange ideas, discuss solutions, and share experiences among researchers, professionals, and application developers both from industry and academia.

Original papers addressing both theoretical and practical aspects of autonomic and opportunistic communications and are solicited.

Papers describing prototype implementations and deployments are welcome.

Topics of interest include but are not limited to:

- Architecture and models for autonomic and opportunistic communications
- Tools and techniques for designing, analyzing and building autonomic and opportunistic networks.
- Adaptive security for self protection of networks
- Economic, biological and social models used for autonomic and opportunistic communications
- Mobility models for opportunistic networking
- Novel management techniques for autonomic and opportunistic communications
- Sensing, monitoring and measurements for self-managing networks
- Advanced technologies for enabling autonomic and opportunistic communications
- Autonomic and opportunistic communication testbeds and measurements
- Algorithmic aspects associated with autonomic communications environments and problems

Paper Submission and Publication

Papers should neither have been published elsewhere nor currently under review by another conference or journal. Guidelines on paper submission and formatting are available at

<http://cnd.iit.cnr.it/aoc2008/>.

Accepted papers will appear in the symposium proceedings published by IEEE. Extended versions of workshop selected papers will be considered for possible fast track publication on the Pervasive and Mobile Computing Journal (Elsevier).

WORKSHOPS CHAIRS

Marco Conti, IIT - CNR, Italy
Silvia Giordano, SUPSI, Switzerland
Ioannis Stavrakakis, Univ. of Athens, Greece

PUBLICITY CHAIR

Chiara Boldrini, IIT - CNR, Italy

PROGRAM COMMITTEE

Mostafa Ammar, Georgia Institute of Technology, USA
Edoardo Biagioni, University of Hawaii, USA
Vania Conan, Thales, France
Falko Dressler, University of Erlangen-Nuremberg, Germany
Stephen Farrell, Trinity College Dublin, Ireland
Per Gunningberg, Uppsala University, Sweden
Hannes Hartenstein, Karlsruhe, Germany
Jean-Yves Le Boudec, EPFL, Switzerland
Vincent Lenders, Princeton University, USA
Cecilia Mascolo, UCL, UK
Martin May, ETH, Switzerland
Daniele Miorandi, Create-net, Italy
Refik Molva, Eurécom, France
Konstantinos Oikonomou, Ionian University, Greece
Joerg Ott, HUT, Finland
Antonios Panagakis, University of Athens, Greece
Symeon Papavassiliou, NTUA, Greece
Andrea Passarella, IIT-CNR, Italy
Giovanni Pau, UCLA, USA
Calicrates Policroniades, Telenor, Norway
George Polyzos, AUEB, Greece
Konstantinos Psounis, University of Southern California, USA
Christian Rohner, Uppsala University, Sweden
Fabrizio Sestini, FET, European Commission
Thrasylvoulos Spyropoulos, ETH Zurich, Switzerland
John Strassner, Motorola, USA
Violet Syrotiuk, Arizona State University, USA
Pablo Vidales, Deutsche Telekom Laboratories, Germany
Hongyi Wu, University of Louisiana, USA
Eiko Yoneki, University of Cambridge, UK
Franco Zambonelli, University of Modena-Reggio, Italy

WEB DESIGNER AND MANAGER

Maria Bucci, IIT-CNR, Italy

Important dates

Full papers due: February 18, 2008
Notification: March 15, 2008

For more information: <http://cnd.cnr.iit.it/aoc2008>

The workshop is jointly organized by the projects:

HAGGLE

ANA

funded by the FET-IST Programme in the area
Situated and Autonomic Communications (SAC)
